22 15/16" (582 mm)
- When closed, the unit protrudes:
4" (102 mm)

Gamco Baby Changing Stations feature an internal steel frame that allows the bed to support up to 150 lbs. (68 kg). A built-in shock mechanism ensures a controlled, smooth opening and closing, while a steel-on-steel hinge provides increased resistance to wear and enhanced durability.

The design complements modern restroom aesthetics. Proudly made in the USA, these changing stations offer both reliability and style.

Available in Cream and Light Grey.

Steel frame for added strength and easier installation.
